

The development of young people's mental health. A global perspective.

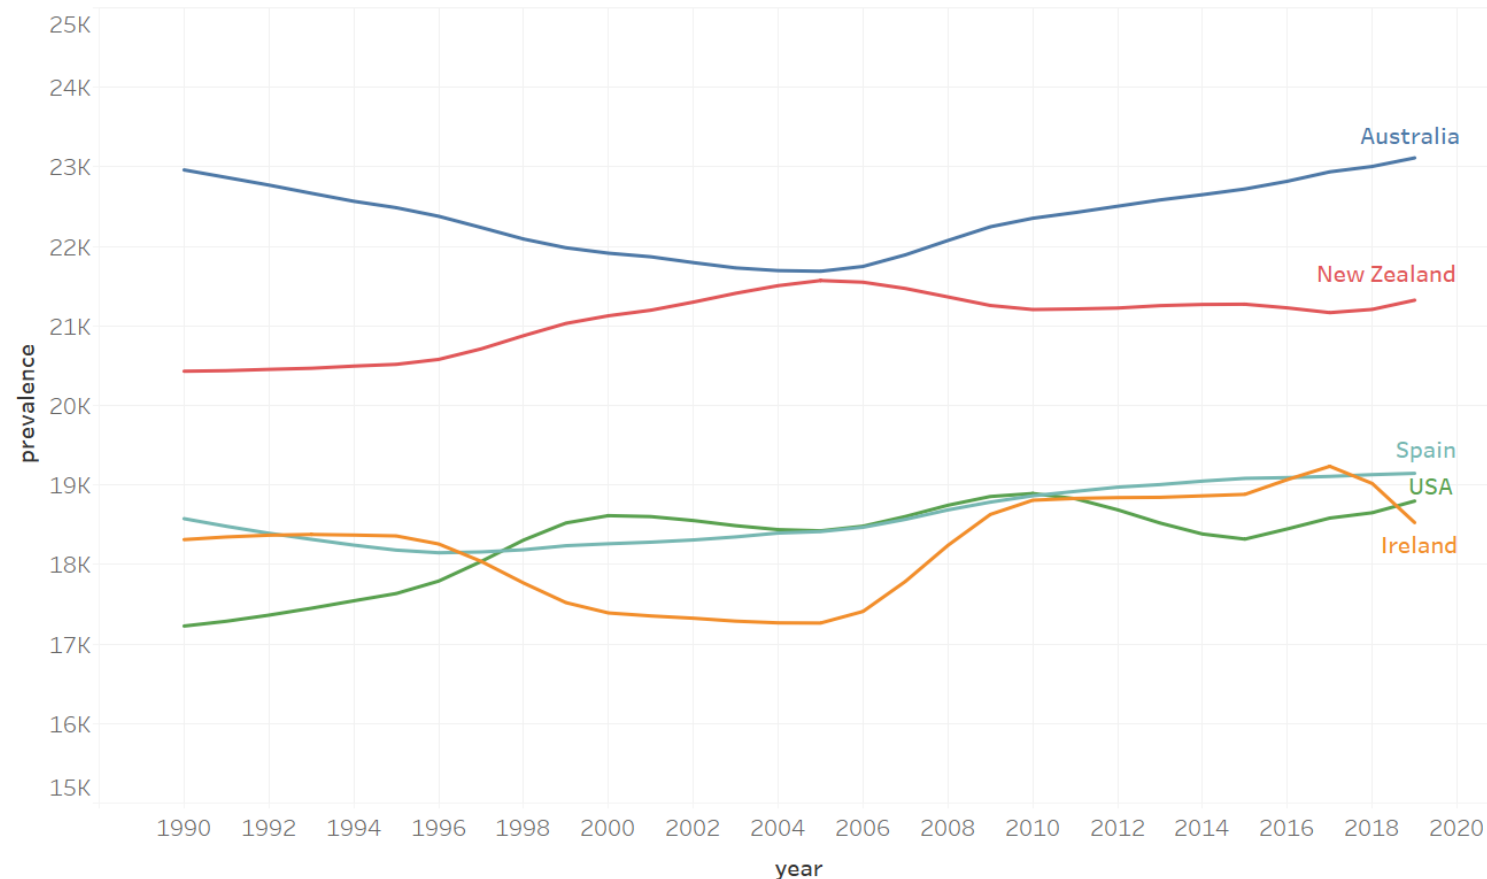

Tech stack and data used

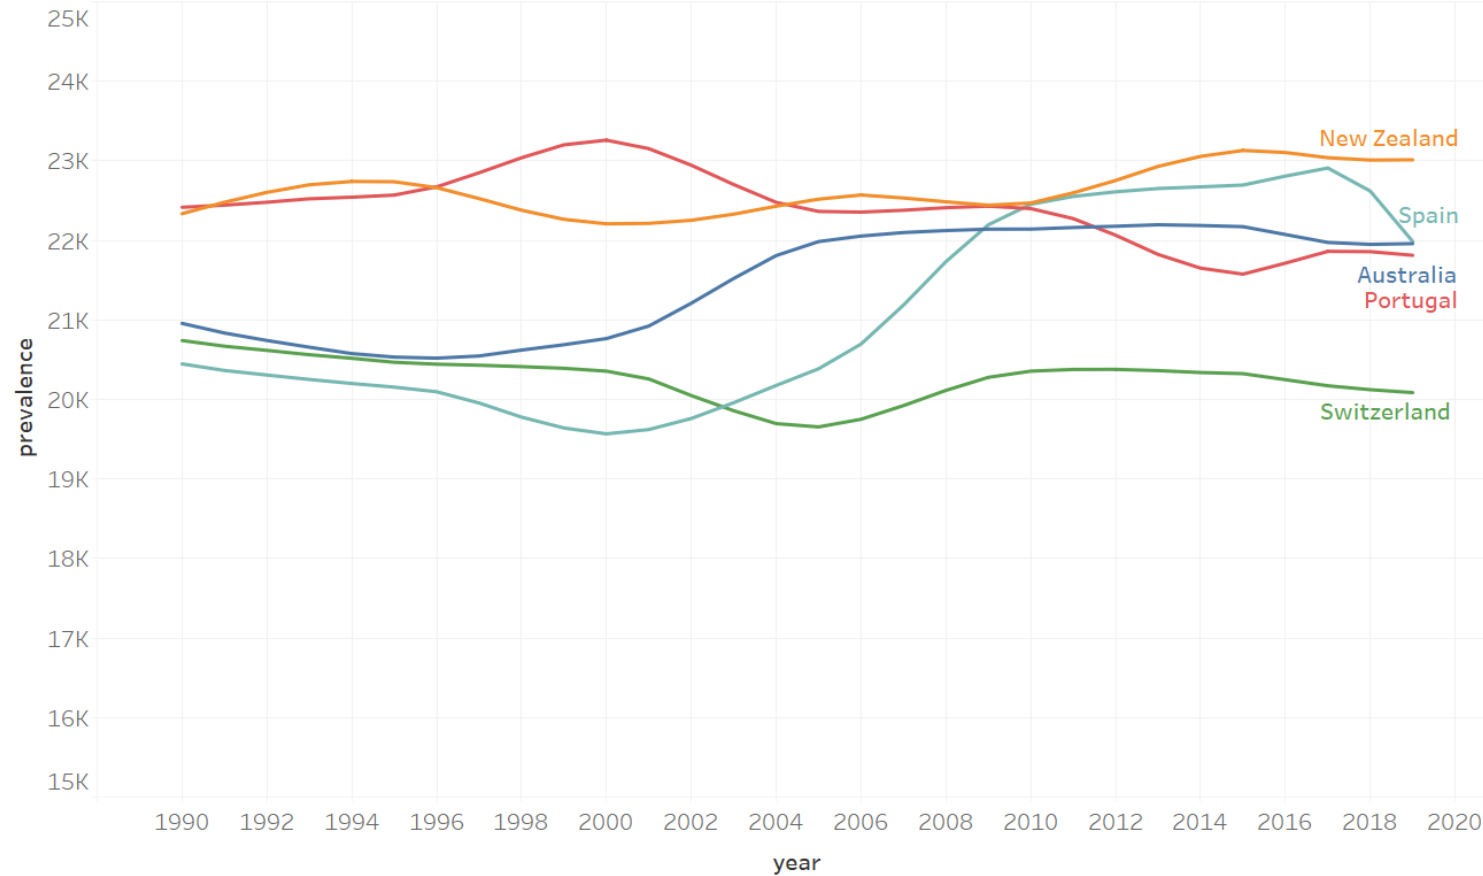

Global Burden of Disease (GBD)

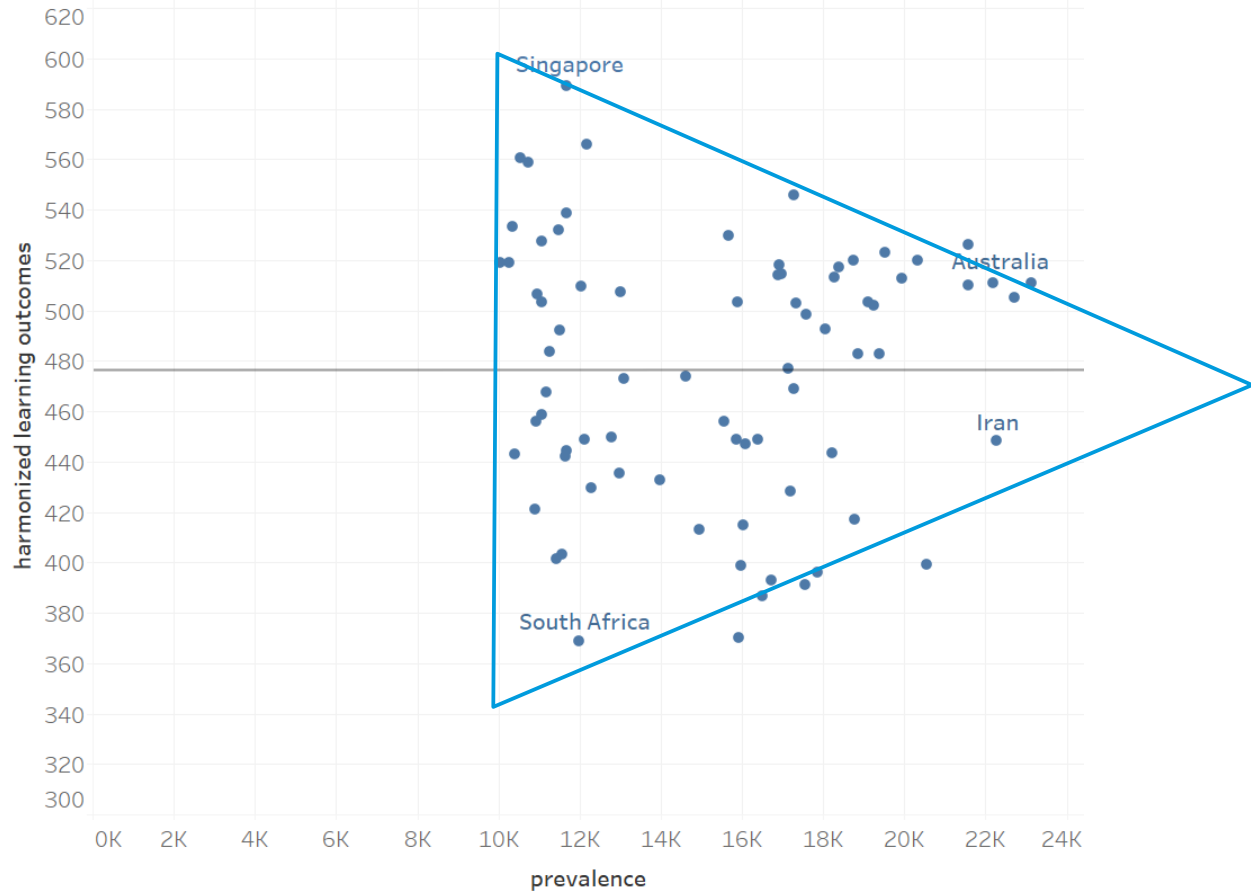

Average yearly prevalence rate of mental disorders among the male youth from 1990 to 2019 – Top 5 OECD countries

Average yearly prevalence rate of mental disorders among the female youth from 1990 to 2019 – Top 5 OECD countries

Harmonized learning scores and prevalence rate for female secondary students in 2015

Key takeaways

Macro data

- + allows a global perspective
- levels many differences

Micro data

- + Finding correlations easier
- more difficult to generalize findings
